CAREER OBJECTIVE

Associate Software Engineer with 1+ year of professional experience in Python backend development, Generative AI, and enterprise applications. Hands-on experience building and deploying production AI solutions using RAG, semantic search, vector databases, LLMs, and multi-agent workflows. Strong in Python, FastAPI, REST APIs, LangChain, FAISS, authentication, microservices, and cloud technologies.

PROFESSIONAL EXPERIENCE

Associate Software Engineer
Primesoft Solutions Pvt. Ltd. **June 2025 - Present**

• Develop Python based backend applications and REST APIs for enterprise software and AI-powered solutions, with primary focus on hands-on development.
• Built a Support Ticket AI Assistant using RAG, semantic search, FAISS, LangChain, and Sentence Transformers for contextual support-ticket assistance.
• Implemented document ingestion, preprocessing, chunking, embedding generation, vector retrieval, and contextual response generation pipelines.
• Integrated enterprise support data and implemented LLM support for OpenAI, Google Gemini, and Ollama, enabling cloud and local model execution.
• Developed a Multi-Agent Email Orchestration System using Python, FastAPI, and React with Planning, Generation, and Reflection agents.
• Implemented intent detection, recipient resolution, ambiguity handling, JWT/OAuth authentication, email generation, validation, and streaming AI draft workflows.
• Worked with PostgreSQL, Redis, microservices, Docker, cloud environments, and CI/CD workflows; took ownership of assigned features through development, debugging, validation, and delivery.

AI PROJECTS

Knowledge Assistant - AI Powered RAG Application | Personal Project
• Built an AI knowledge assistant using document processing, embeddings, vector search, RAG, and LLM-based contextual response generation.
• Implemented retrieval workflows designed to ground responses in user-provided knowledge sources.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering – Data Science

ACE Engineering College, Hyderabad	2020 – 2024	CGPA: 8.33
Intermediate – SR Junior College, Hyderabad	2018 – 2020	89%
SSC – Panchavati Vidyalaya, Mahabubnagar	2017 – 2018	95%

SKILLS

Programming: Python, SQL
Backend Development: FastAPI, Flask, REST APIs, JWT/OAuth Authentication, API Integration, SQLAlchemy
Generative AI and LLMs: Retrieval-Augmented Generation (RAG), Semantic Search, LangChain, LangGraph, FAISS, AI Agents, Prompt Engineering, OpenAI, Claude, Gemini, Ollama, Multi-Agent Systems.
ML and FineTuning: PyTorch, Hugging Face Transformers, Sentence Transformers, Model Evaluation, LoRA, QLoRA
Databases: PostgreSQL, Microsoft SQL Server, SQLite
Cloud / DevOps: Azure, GCP, AWS, Docker, Kubernetes, Helm, GitHub Actions, Azure Pipelines, ACR, Trivy
Tools: Git, GitHub, Bitbucket, Postman, VS Code, Visual Studio, Cursor, WSL2
